

produces ammonia, a readily available nitrogen source for wheat, oats, barley, sorghum, millet, rye, and sunflowers

Liquid In-Furrow Application

Pivot Bio RETURN® contains living microbes which will provide ammonia to wheat, oats, barley, sorghum, millet, and sunflowers when applied according to directions for use.

Pivot Bio RETURN® must be used as an in-furrow application. Each unit of Pivot Bio RETURN® may be mixed with compatible in-furrow/“pop-up” fertilizers, insecticides, and/or water in the application tanks immediately prior to application. Avoid use with fertilizers with a high salt content. For compatibility or technical questions, contact your regional representative.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.html>

DIRECTIONS FOR USE

- 1. Shake box before use. In a well-ventilated area, unscrew the whitecap and remove the blue pull ring. Aim and pour directly into the tank.
- 2. a. For wheat, oats, rye, and barley, apply at a rate according to the Common Application table below.

Common Application Rates

Row Spacing (Inches)	Fluid Oz per acre	Acres per box
30	12.8	40
20	19.2	25
15	25.6	20
10	38.4	13.3
7.5	51.2	10

b. For sorghum, millet, and sunflowers, apply at a rate of 0.1 gallons per acre. This 37lb product of Pivot Bio RETURN® will treat 40 acres of sorghum, millet, or sunflowers.

- 3. Use within 24 hours once opened.

STORAGE AND HANDLING

To maintain product viability, store unopened container in conditions between 32° – 70°F and away from direct sunlight. Keep out of reach of children. Use before the expiration date.

Wear safety goggles and disposable rubber/latex gloves to avoid direct contact with eyes and skin. In case of direct contact with eyes and skin, immediately wash the exposed area with clean water. See Safety Data Sheet for further guidance.

DISPOSAL

Cardboard packaging may be recycled. Do not reuse inner plastic bag. Emptied inner plastic bag and used gloves may be placed into the trash to be disposed of through the municipal waste.

CONTAINS NON-PLANT FOOD INGREDIENT

MINIMUM GUARANTEED ANALYSIS – SOIL AMENDING INGREDIENTS

Active ingredient - *Klebsiella variicola* (137-1036) 4x10⁸ viable cfu/ml<2%

Inert ingredients - aqueous carrier.<98%
