

On-Seed Application

Pivot Bio PROVEN®G3 contains living microbes which will deliver ammoniacal nitrogen to corn plants and allow more effective utilization of nutrients to support crop growth and development when applied according to directions for use.

This package of Pivot Bio PROVEN®G3 will treat 1 seed box (80,000 seeds) as a seed treatment.

DIRECTIONS FOR USE

1. Follow the application guidelines provided by Pivot Bio for calibration of the seed treater equipment when using the Pivot Bio PROVEN®G3 product.
2. In a well-ventilated area, unscrew the cap and remove the pull ring of the extender bladder (packaged separately) and pour the contents directly into the poly tank provided and dedicated for use with the Pivot Bio PROVEN®G3 product.
3. Tear the green mylar pouch first and pour contents into the liquid extender in the tank, repeat process with silver pouch. Do not begin mixing until the pouches are completely emptied.
4. Mix for 1 to 2 minutes to ensure the powders have been completely dissolved in the liquid.
5. Apply at 71mL (2.4 fl. oz) per unit of corn seed.
6. Use within 4 hours once opened and mixed.

STORAGE AND HANDLING

- To maintain product viability, store unopened mylar packages (packaged together, do not separate) at 0°F (-18°C).
- Keep out of reach of children.
- Use before the expiration date on box.
- Wear safety glasses, chemical resistant protective gloves, and respiratory protection to avoid direct contact with eyes, skin, nose and mouth. If direct exposure occurs, immediately wash the exposed area with clean water and soap.
- Wash hands and face prior to eating, drinking, chewing gum or using tobacco.
- Remove and wash contaminated clothing before re-use.
- See Safety Data Sheet for further guidance.

DISPOSAL

- Outward cardboard packaging may be recycled. Do not reuse inner pouches or bladders.
- Emptied pouches, bladders, used gloves and masks may be placed into the trash to be disposed of through the municipal waste.

GUARANTEED ANALYSIS – SOIL AMENDING INGREDIENTS

Active ingredients in Silver mylar pouch:

Klebsiella variicola 137-2253.....1x10⁹ viable CFU/g

Kosakonia sacchari 6-5687.....1x10⁹ viable CFU/g

Net Weight: 225g (0.50lb)

Active ingredients in Green mylar pouch:

Methylobacterium gregans4x10⁹ viable CFU/g

Methylobacterium radiotolerans4x10⁹ viable CFU/g

Net Weight: 177g (0.39lb)

Total Net Weight: 2Lbs (.91 Kg)

% by weight of each active ingredient: <50% by wt.

Extender Bladder (packaged separately)

Inert ingredients.. 100% by wt.
