

THE NEXT GENERATION OF PROVEN NITROGEN AND NUTRIENTS YOUR CROPS NEED

As the third generation of PROVEN nitrogen, **Pivot Bio PROVEN® G3 is your foundational, consistent and durable source of N.** Weatherproof N means no volatilization and no leaching, with daily, spoon-fed in-season nitrogen at the roots. PROVEN G3 will be available as an on-seed, LIF and DRY treatment in 2027.

PROVEN G3 is the first PROVEN product with multiple (three) modes of action and four microbes, including a new proprietary methylotroph blend for enhanced crop nutrition.

DELIVERING A TRIPLE SHOT OF POWER ALL SEASON LONG

FEED

The **ONLY** gene-edited microbes providing nitrogen even when other N fertilizer is present.

Substitute 25-40lb with PROVEN G3, diversifying your N plan with same or better yields.

BOOST

Boosting crop growth by increasing nutrient uptake.

+6% Root area
+13% Biomass
+7% Chlorophyll content

AMPLIFY

Driving plant health to enhance yield potential.

+9% Nitrogen
+18% Iron
+13% Manganese

PRECISE NITROGEN THAT STAYS WITH YOUR CROP

THE ONLY GENE-EDITED MICROBE CONTINUOUSLY FIXING NITROGEN IN THE PRESENCE OF SYNTHETIC N.

NO VOLATILIZATION

NO DENITRIFICATION

NO LEACHING

PROVEN IN THE FIELD ACROSS ENVIRONMENTS AND MANAGEMENT STYLES

+33 LBS OF N REPLACED

data-driven best management practices optimize performance for your farm

+2.1 BU/A YIELD ADVANTAGE

in 130+ nationwide field trials

NUTRIENT UPTAKE

tissue samples show significant boosts in N, Fe and Mn by V6 stage

PROVEN G3 is like flipping on the turbo — faster canopy, deeper roots, and I dropped 30 lbs N.
